CS410 Final Project Presentation
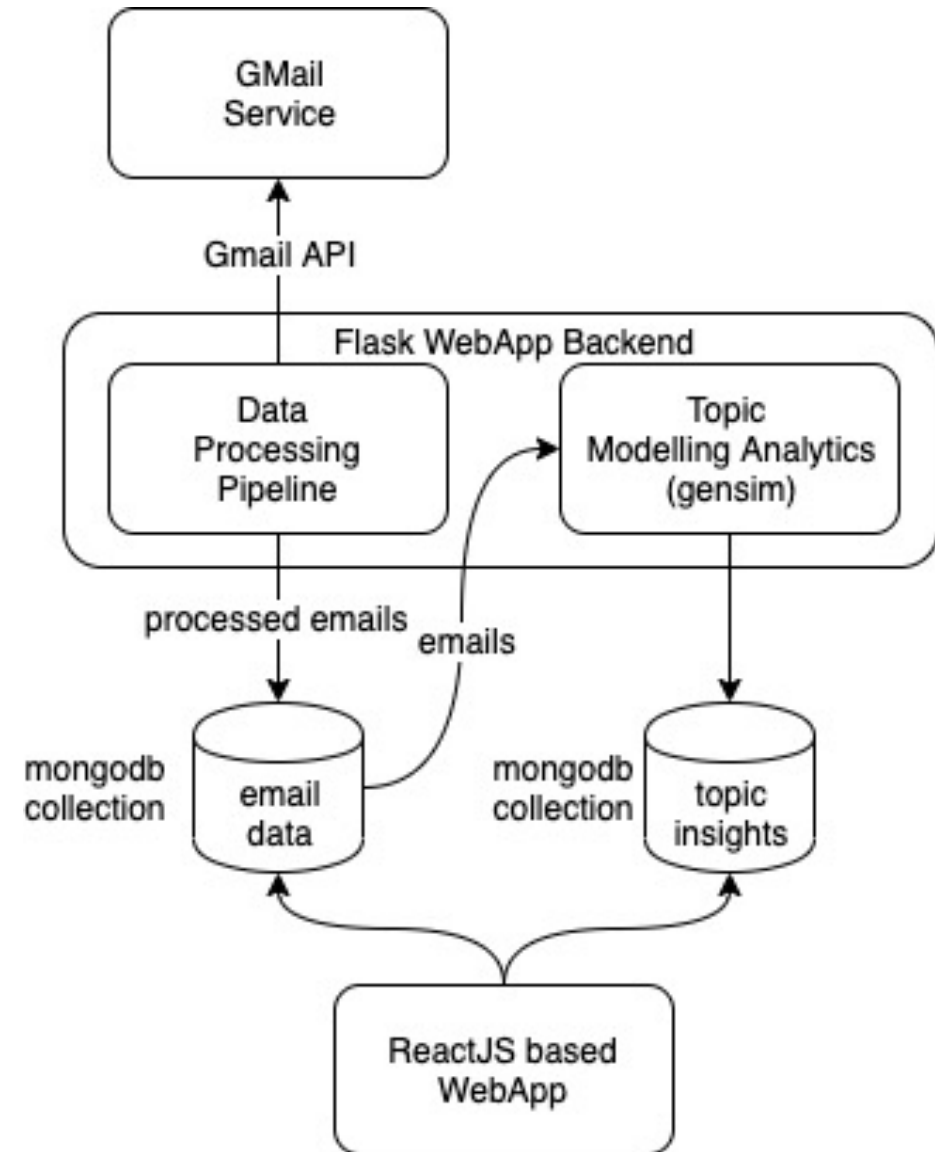

Fall 2021

Ameet Deulgaonkar (ameetd2)

Praveen Purohit (purohit4)

Goals

- Mine latent Topics in an email corpus (user's Inbox)
  - Help users manage deluge of emails more effectively
- Show discovered topics in a dashboard (WebApp)
  - Helps users focus on important mails (single vs. noise)
- Summary lengthy emails (keywords)
  - Help users to determine if an emails is worth his time

Application Design
